

The Office of Housing of the Consell de Formentera reports that yesterday the Governing Board approved a line of aid for islanders with monthly rent payments of up to €1,200. The assistance will be granted for a maximum of 12 months and calculated for the period extending 1 January to 31 December 2022.

Rafael Ramírez, housing councillor, said that the assistance, the third of its kind this legislature, "will make it easier for Formentera residents to stay in rental housing, and alleviate the negative effects of rising rents on our island". "This help has been tailored and made more flexible to reach as many people as possible", he added.

Up to €2,640

Assistance will not exceed €2,640, or €220 in individual monthly disbursements. The money is for renters and will be granted non-competitively and based on the established figures. Disbursements will be reduced proportionally if total awards exceed the related budget appropriation.
