

At 12 noon today and following an announcement by the Consell de Formentera, the island paid tribute to victims of the Covid-19 pandemic with a minute in silence. Standing in solidarity on the steps of the Casa Consistorial were Consell president Alejandra Ferrer, the rest of the local cabinet, members of the opposition and administration staff.

Following an announcement yesterday from the government in Madrid, the country will observe an official ten-day period of mourning from 6 June. During this time, the Consell de Formentera standard will fly at half past in memory of victims.
