

From 7.00pm on Monday 17 August, Marià Castelló's *Fragments d'Arquitectura* will begin a two-week run at the Sala d'Exposicions—Ajuntament Vell. Save for a weekly closure on Sundays and Monday mornings, the display will be open for daily visits from 11.00am to 2.00pm and 7.00pm to 9.00pm.

Castelló describes the project as a reflection on local architecture revelatory of a particular relationship between shelter and buildings in general—"considerations which are hard to appreciate without the analytical help afforded by cross-sectioning", he asserts. "*Fragments d'Arquitectura*
can additionally be seen as a collection of sculptures that repurpose the geometrical proportions of original buildings — even at the risk of abstraction: we're seeing things that neither photos nor on-site visits can show".
